### REFRACTION

To our valued Patients:

REFRACTION is the process of determining your best-corrected vision and if there is a need for corrective glasses.

Performing a refraction and/or providing you with a prescription for glasses is a routine service that is not covered by Medicare and most other insurance companies. We are providing you with this information so you can make an informed decision regarding your eye care.

The fee for this service is \$30.00.

Please make a selection below:

\_\_\_\_\_ **Yes**, I would like to be measured (refracted) for new glasses and given a prescription if deemed necessary or if I request it.

\_\_\_\_\_ **No**, I would not like to be measured for glasses or given a prescription for glasses.

THIS AUTHORIZATION WILL REMAIN IN FORCE UNTIL TERMINATED IN WRITING BY ME
